

I want to share my story, that goes back some years, when Nicolas was still with us...

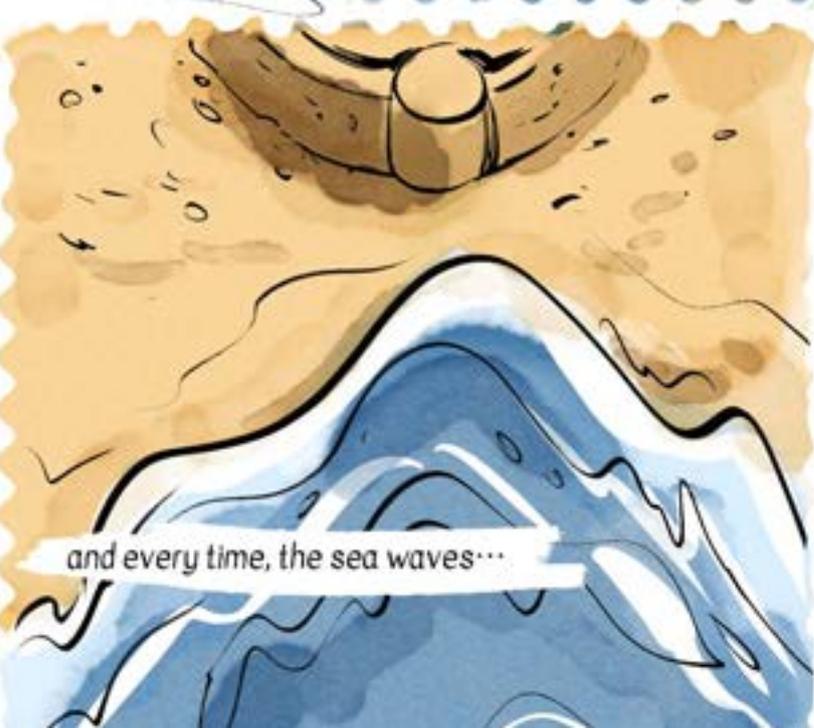

I met him as a child, and from that age he loved the sea.

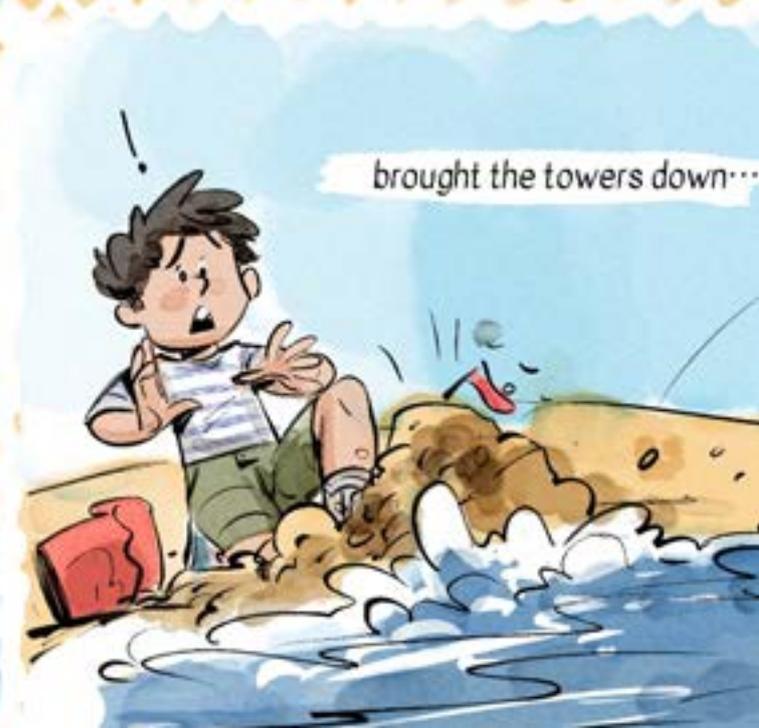

He was playing for hours in the beach building towers from s...

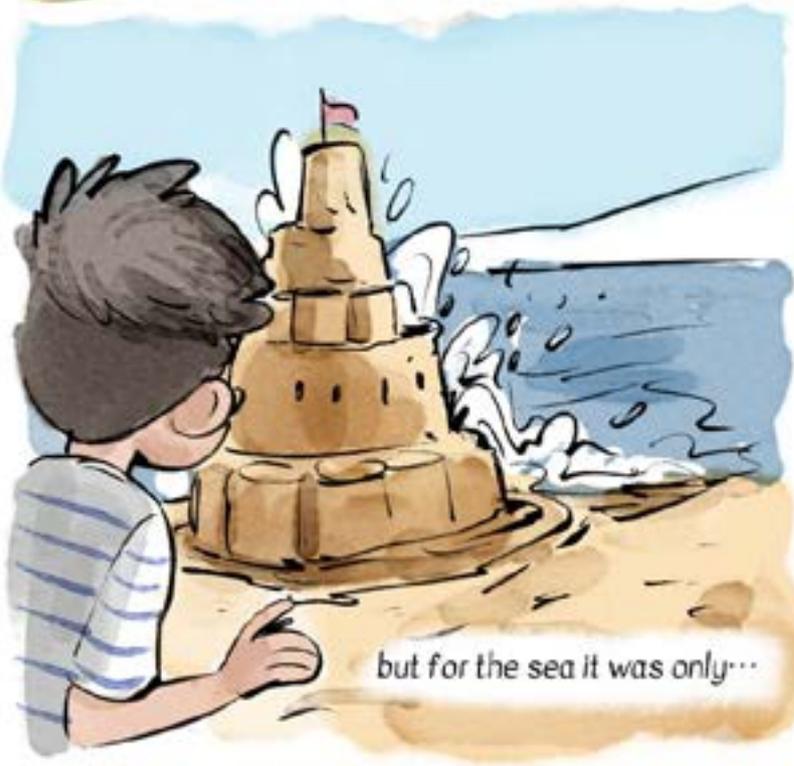

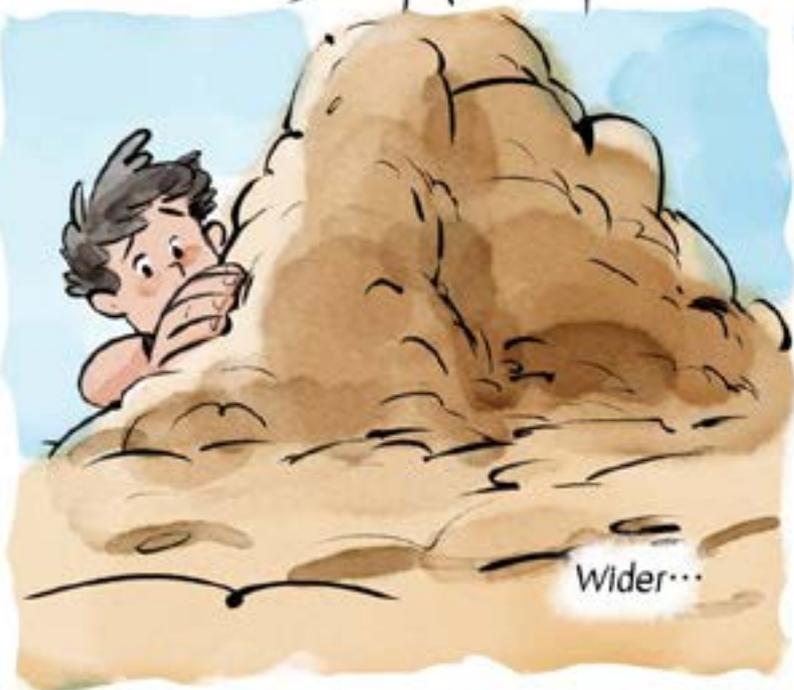

and every time, the sea waves...

brought the towers down...

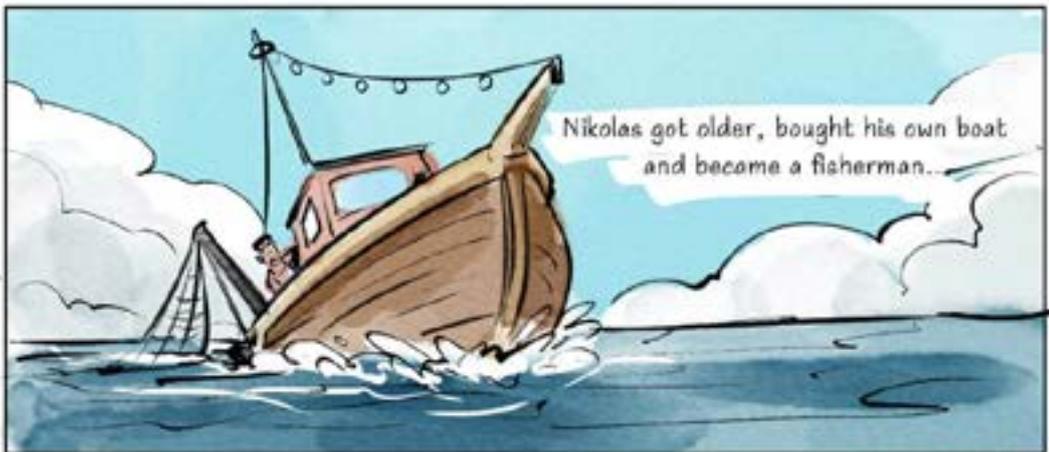

the years have passed

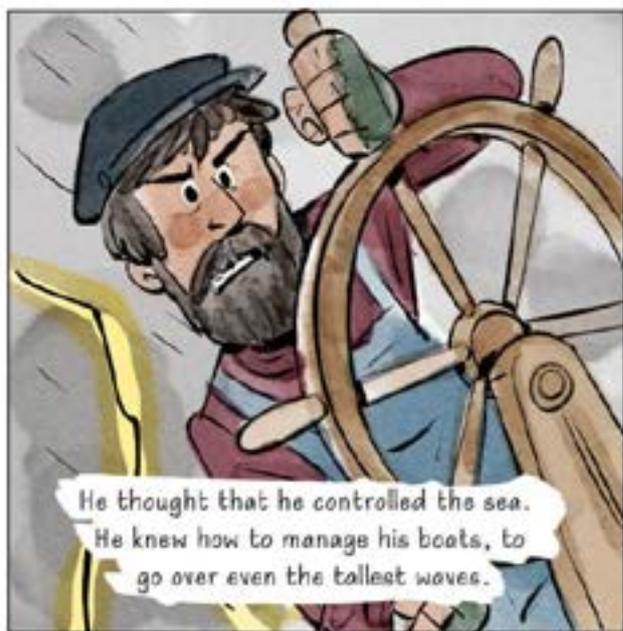

Nikolas got older, bought his own boat and became a fisherman.

The only fisherman that goes to open sea whatever the weather.

The bravest one!

He thought that he controlled the sea.  
He knew how to manage his boats, to  
go over even the tallest waves.

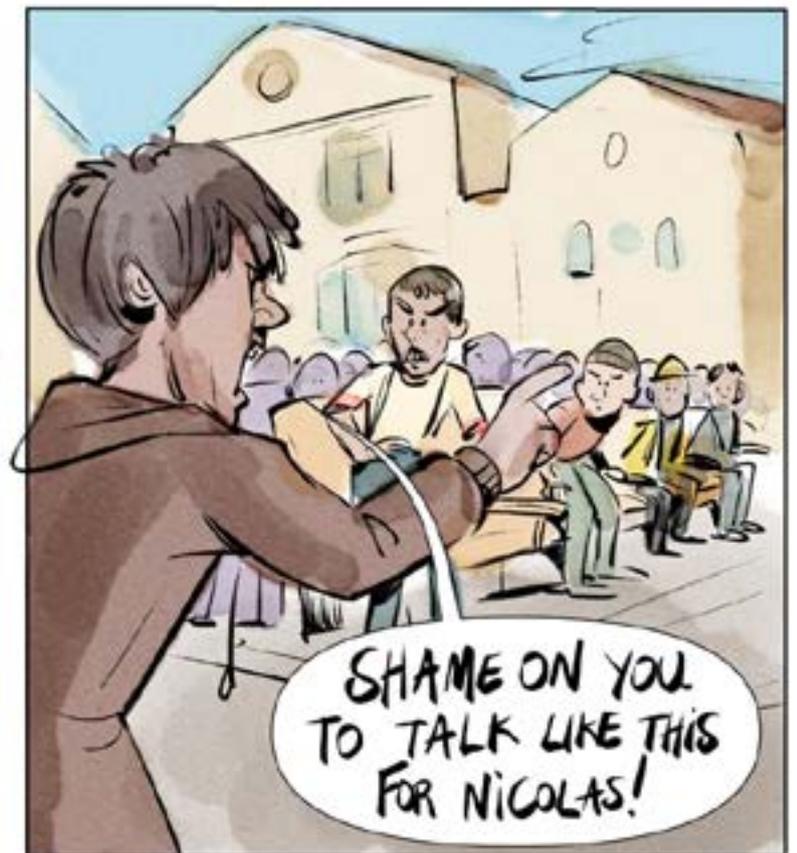

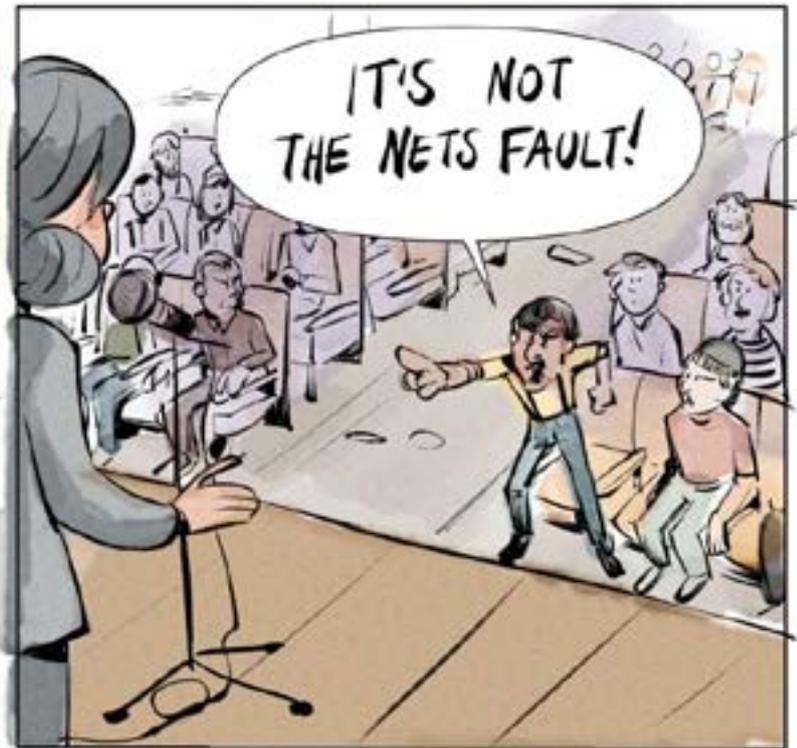

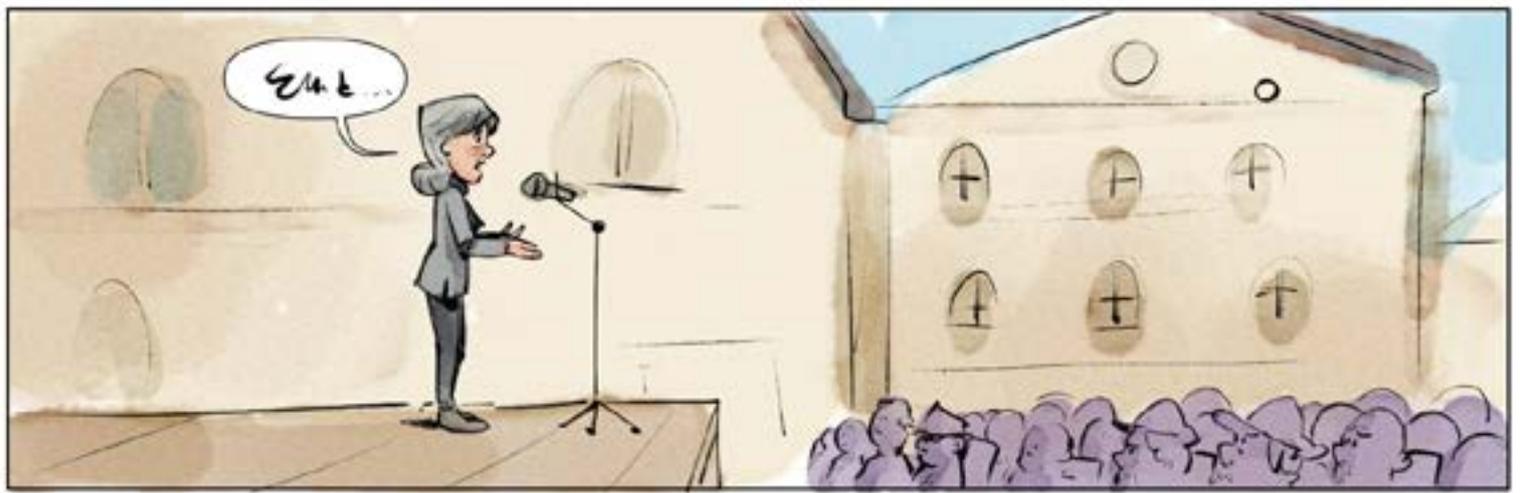

But the sea never has to be  
underestimated.

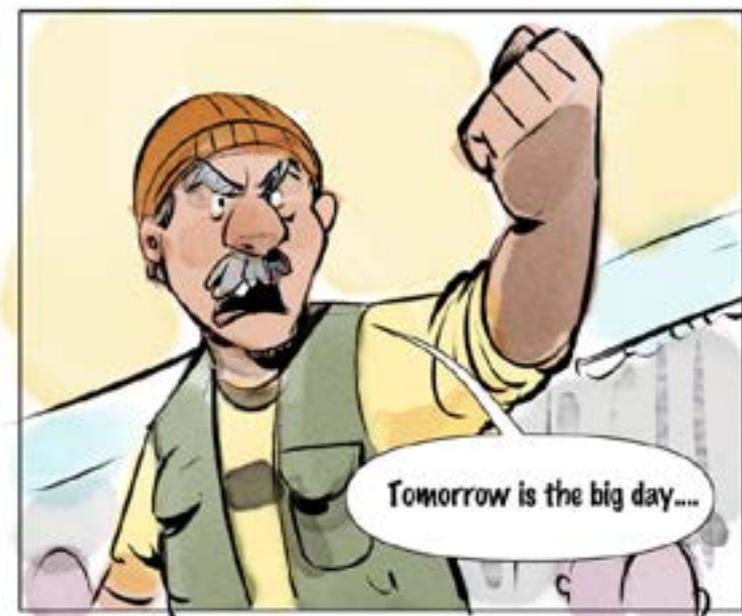

The sea always wins...

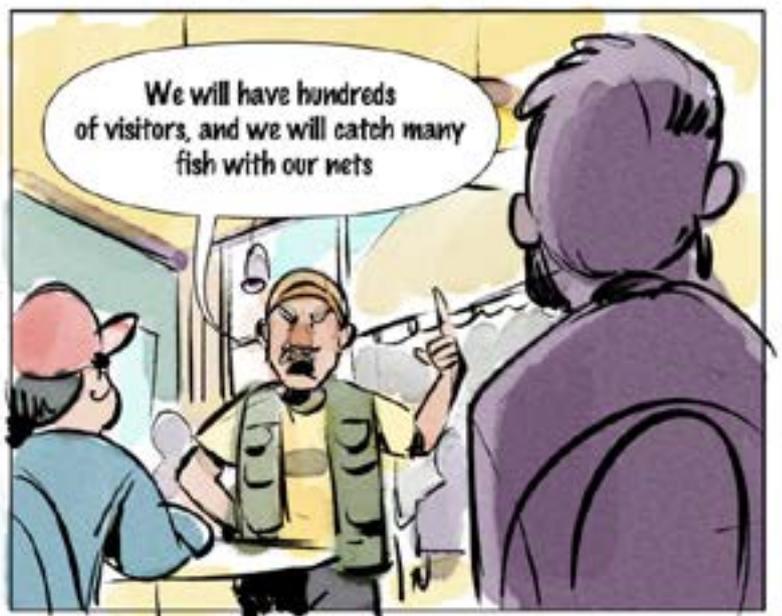

Tomorrow is the big day...

We will have hundreds of visitors, and we will catch many fish with our nets

With the traditional method our parents and grandparents used for ages"

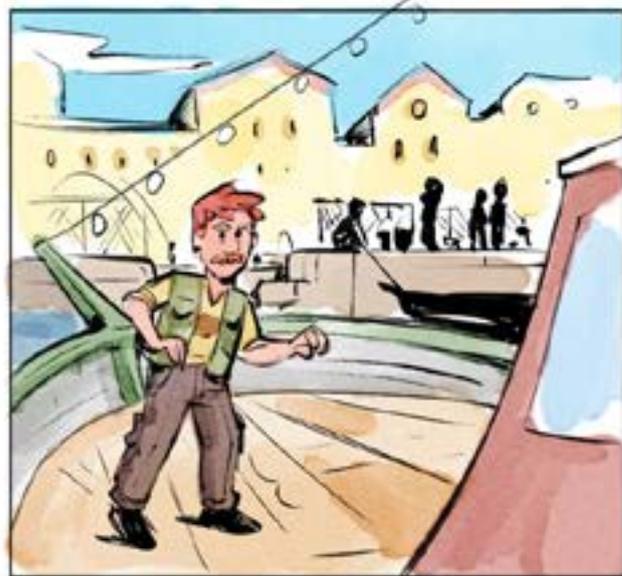

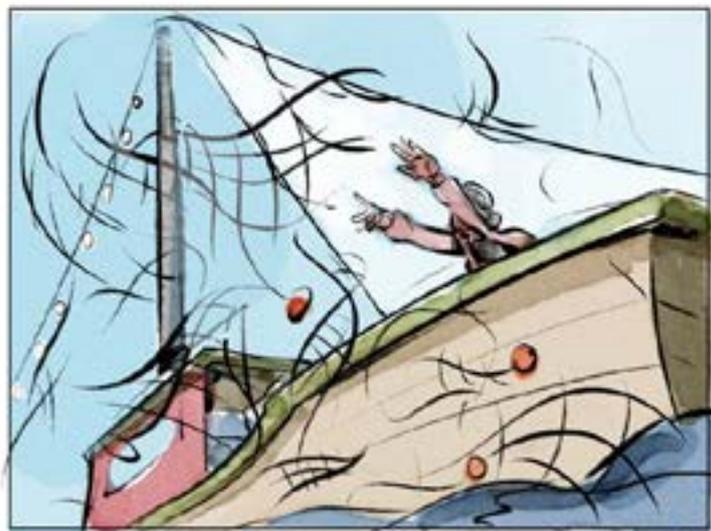

We know that Fausta with her team is planning to use the new nets...

So I have a plan...

THEY DESTROYED  
OUR NETS!

QUICKLY CUT THEIR WAY!
